Pandora and La Sal/Snowball Mines, M0370012 and M0370026, Tasks 2043 and 2044,  
San Juan County, Utah

Dear Ms. Woodward:

The Division received a copy of a letter from you dated October 10, 2007, addressed to Rebecca Doolittle of the BLM Moab Field Office requesting a change in the operator name for the Pandora and La Sal/Snowball Mines. As stated in a separate letter to you, the Division needs to receive modified pages for insertion in the Notice of Intention to Commence Large Mining Operations.

Included with the letter to Ms. Doolittle was a copy of a map showing the vent holes associated with these mines. In its letter of September 18, 2007, addressed to Harold Roberts, the Division asked Denison to submit a copy of form MR-REV-att together with a clean copy of the vent hole amendment for insertion into the Notice of Intention. We also asked for a revised map showing the locations of all the vent holes associated with these mines, including the two new ones. The Division has yet to receive this information, so although the reclamation surety has been received, the amendment is not approved.

We previously sent you, and you apparently returned to us, a Modification of Attachment A to the Reclamation Contract. We have record of receiving this document in our building, but it has been misplaced. Enclosed is a new copy, and we ask that you again sign and return it.
